

9W RGB+CCT LED Underground Light (LoRa 433MHz)

Model No : RD-9I

### **Product Features**

We use LoRa modem technology to fulfill the super long distance controlling. It's controlled by our 433MHz remote control or 433MHz Gateway for smartphone control. The lamp is with Red, Green, blue, cool white and warm white LED chips to fulfill the color changing, brightness dimming and dynamic mode controlling. Easy operation.

RGB+CCT

16 millions of colors to choose

433MHz RF wireless transmission technology

433MHz remote controller control

Smartphone APP control (433MHz Gateway is needed)

Support third party voice control (433MHz Gateway is needed)

## **Dynamic Mode Sheet**

Waterproof and dustproof

grade IP68

Number	Dynamic Mode	Brightness & Speed	
1	Mardi gras		
2	Automatic color change		
3	Sam		
4	Gemstone	Adjustable	
5	Twilight		
6	American		
7	Fat tuesday		
8	Party		
9	Slow color splash		

### **Parameters**

Model No.: RD-9L

Input: AC12V / DC12V~24V

Power: 9W

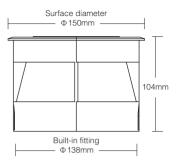

Working Temperature: -20~45°C Color Temperature: 2700K~6500K

Luminous Flux: 600LM Light Efficiency: 70LM/W

CRI: >80

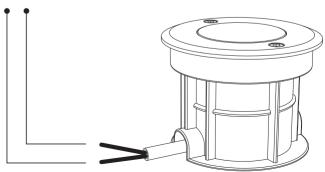

Lifespan: 50000h Beam Angle: 15°

RF: 433MHz (LoRa spread spectrum)

# **Connection Diagram**

Input: AC12V / DC12V~24V

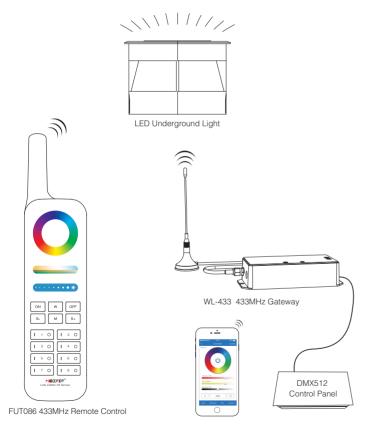

### Link/Unlink

Compatible with "FUT086 remote control" and "WL-433 433MHz gateway" (Purchased separately)

Lighting can be working after linking with remote; for more details, pls read the remote instruction.

## Switch-OFF to change color instruction

Switch OFF(for 5 s Switch-ON again	seconds);	Switch-OFF (For 5-10 seconds); Switch ON again	Switch-OFF ( for over 10 seconds); Switch ON again
Switch the colors a	nd dynamic modes in turn		
1. Static red	9. Mardi gras		
2. Static green	10. Automatic color change		
3. Static blue	11. Sam		
4. Static yellow	12. Gemstone	Static red	Status before Switch OFF
5. Static cyan	13. Twilight		
6. Static purple	14. American		
7. Static cool white	15. Fat tuesday		
8. Static warm white	16. Party		
	17. Slow color splash		

### **Attention**

- Please check whether the input voltage supply is in accordance with the lighting fixtures, and please check the connection of both the cathode and anode.
- 2. The working voltage is DC24V, the light will be damaged if the voltage is higher than DC24.
- 3. Non-professional user cannot dismantle the light directly, otherwise it may damage the it.
- 4. The working temperature is -20~45°C.
- Please do not use light around the mental area and high magnetic field, otherwise, the control distance will be affected seriously.
